

## 2018 Ohio Business Profile Themes

Since the launch of the [Ohio Business Profile](#) program in 2011, Secretary of State Jon Husted has featured hundreds of Ohio-based companies to highlight the many business entities that call our state home. Each month, we compile a list of businesses around a certain theme and we are hoping you will partner with our office to recommend some of your members to be featured.

Included below is the list of the themes we are planning to use throughout 2018. We would like to feature some of your community members and would welcome your suggestions. We would need the name of the organization and a contact to call. Businesses must be registered in Ohio.

Please send your suggestions to Cassandra MacDonald at [CMacDonald@OhioSecretaryofState.gov](mailto:CMacDonald@OhioSecretaryofState.gov) at least two months ahead of time for each feature month.

- **August – Nonprofit Organizations (list already compiled)**
- **September – Agriculture**
- **October – Ohio's Future** - featuring innovative companies working with technologies that continuously move Ohio and the nation forward
- **November – Veteran-Owned Businesses**
- **December – Made in Ohio** - featuring some of the many wonderful businesses that have been highlighted over the years (no suggestions needed for this month)
