SCS 0114

Jon Husted
Ohio Secretary of State

Our country was founded on principles of freedom, the rights of the governed and personal responsibility in a way the world had never before seen. Our founding fathers created the groundwork for a society that protected first the liberties of the individual, before establishing the power of the government.

As Ohio's Secretary of State, I want all Ohioans to be aware of the ideas and principles that built our great nation and state. Our Founding Fathers program provides information and resources to help citizens better understand our history and to be better informed participants in our democracy.

We must never forget the ideals and the values upon which this country was founded, especially as we work to preserve and strengthen our republic. OhioFoundingFathers.com is a great resource for information. While on our site, be sure to take our history quiz to see how well you know Ohio.

Make sure you register to vote and remember the lessons of our past when you choose our future leaders.
