Microphone Etiquette

- Do not blow, tap, drop, hit, or spit on or into the microphone.
- Do not use the microphone without the accompanying windscreen (foam cover).
- Do not step on, knot, or twist the cord.
- If the microphone comes with removable batteries, do not put the microphone away with the batteries still inside. Remove batteries after using.
- When using a Lavalier (lapel) microphone, place it somewhere where it will not get hit or brushed by your subject’s hair, jewelry, or clothing.
