Program Overview

Ohio Library Council through Sourcing Office selected OnDemand Energy to serve our members as our third-party, independent Energy management consultant. OnDemand is one of the largest (in terms of kWh and MCF volume) Energy management consultants in the country, works with more than 20 different suppliers, invests heavily in educating its clients before making recommendations or implementing any solutions, provides ongoing tools and assistance to clients, and works with numerous public sector entities and various associations.

- **Leveraging** the purchasing power of over 15 billion kWh
- **Expanding** the offering from solely electricity to both electricity and natural gas
- **Offering** members the best available pricing and contract terms based on their individual, unique needs through a competitive procurement process
- **Ensuring** that OLC members are procuring electricity and natural gas contracts in accordance with statutory guidelines
- **Enabling** OLC to more effectively serve members across the state of Ohio because of implemented deregulations policies
- **Providing** OLC members with more options and flexibility to better meet their Energy needs

There is no cost to Ohio Library Council members for any of these energy procurement services.

In addition, OnDemand offers a wide range of energy management services to affiliates on a case-by-case basis, such as: tariff analysis, load shape analysis, Energy audit services, Energy and peak demand reduction, audit demand response, etc.
