Youth Services Programming Specialist

We love superheroes, honeybees and BuzzFeed DIY videos. Why? They help people. If you enjoy helping people, too – especially children – we’d like to work with you! As a programming specialist, you’ll be part of a hard-working, fun-loving group that jokes about our unofficial motto: “Teamwork makes the dream work!” It’s in this team environment that you’ll be creating and leading programs that promote reading skills and get kids excited about books and learning. Get ready to be a role model!

Our award-winning library has been an important part of the community since its founding in 1803, and we’re proud to combine traditional library services with the innovative. What do we offer? Lots of food and fun, plus a supportive culture that includes development opportunities and team-based projects. Join us as we work together to be the library our patrons deserve!
